WE'RE BUILT WITH GREAT PEOPLE

We believe in treating every employee with respect. Every employee within our organization is important to us and plays a vital role in the success of our company.

Our team begins from our receptionist, to the dispatcher, to the operator of equipment and administrators. Every person's role with Elite is essential to delivering high quality service to all of our clients.

We believe the "Elite Team" are the people who pave our way for success. The Vacuum/Steam & Fluid Hauling industry can be challenging at times, but with the promotion of a supportive work environment, our employees are encouraged to pursue each job in a professional and comprehensive manner.

Elite supports their employees to provide the best and optimal service by:

- *Instilling a thorough driving and safety program, which prepares all operators to provide excellent service.*
- *Accessing well maintained, clean, and state-of-the-art equipment.*
- *Communicating with and supporting our employees on each job site, from the time they are dispatched to the job completion.*

With a great work environment and well-cared for staff, we are confident that our "Elite Team" can provide you with the best service in the field.
